

Grace Line was created in 2001 by Dr. Fred Chay for the purpose of motivating Christians toward spiritual maturity.

Living for Christ in today's culture is very challenging, especially since there is so much to distract Christians from godly living and so little encouragement to live godly lives.

If we are to live well for Him during the time of our stay on earth we need a personal theology that is biblically accurate and culturally relevant.

"Right now counts forever" is the standard by which Grace Line operates because living lives that are pleasing to God now, will have great benefit in eternity. We teach the good news that eternal life is the free gift of God to those who believe. *"For by grace you have been saved through faith; and that not of yourselves, it is the gift of God; not as a result of works, that no one should boast."* Ephesians 2:8-9 Equally true is the fact of verse 10. We are saved *"that we might engage in good works"*, not to gain salvation but to express our gratitude to the Lord for our salvation and be rewarded for our faithful service to Him. Our prayer is that the resources provided by this ministry will challenge and encourage you to make your life on earth today count forever, for His glory. For, ***"Things that matter least must never come about at the expense of things that matter most."***
